Price List Ireland

Introduction

The Subaru Charging Network rates are governed by the maximum charging speed, for which a fast charging speed usually also implies higher costs.

Subaru Charging Network differentiates the following charging speeds:

AC – alternating current (normal charging)
DC – direct current (fast charging)
HPC – high power charging (ultra-fast charging)

The maximum charging power capacity of each charging station can be found on the SUBARU CHARGING NETWORK website and the SUBARU Care app.

Please note that the transaction units for charging in public areas may vary due to regulatory requirements in the individual European countries. A transaction is differentiated in terms of kWh, time (min.), or by charging event. All prices are individually based on charge point operators. A variable tariff applies with regard to the individual charging process. The prices depend on respective charge point operators. For charging abroad (= e-roaming), you will always pay the local sales rate without any additional fees.

Subaru Charging Network

The rates that apply to an individual charging event at the respective charging station can be found in the Subaru Care App and are subject to change. Please familiarise yourself with the applicable rates before commencing the charging event.

All prices include VAT
1) Customers who own a fully electric vehicle and registered for the Subaru Charging Network tariff receive a 12 month exemption from the base fee. The offer is valid uniquely for a specific vehicle and cannot be transferred to other vehicles or owners. After the subscription fee exemption expires, the regular Subaru Charging Network Tariff conditions will be applied. The promotional campaign becomes effective upon activation of your charging contract. Activation is possible until 30/09/2027.
2) The charging service contract runs for an indefinite period of time and can be terminated by the customer at any time from the reference date of the contract, with a notice period of no more than one month.

Charging Event Transaction

The invoicing of varying fees for charging is based on the appropriate tariff per minute (per commenced minute), per kWh or per charging event. The charging event starts if the vehicle is connected to the charging station and ends when it is disconnected. You can also recharge for free using the Subaru Charging Network service at free charging stations.

All rates incl. VAT, subject to changes and errors.
